# CONTINUOUS INNOVATION

---

Merenda is a 34-year-old family business with an expertise in manufacturing wood veneer component products for furniture manufacturers. We supply to 12 countries Worldwide with an expert team of 25 people headquartered in the Northwest of Ireland.

Merenda engages with all company stakeholders by living its 7 core values and working on the company mission every day to 'Go Further' for our partners. We make it possible for the beauty of wood to be affordably used as interior décor and furniture in homes and work spaces around the world. We create decorative but functional wood surface coverings

from veneer for furniture manufacturers and interior joinery's that have specific architectural requirements for their clients.

As a business we concentrate on knowing and understanding our client's requirements first. Our success is measured by customer tenure. When partners work with Merenda, we have a stake in their industry reputation which is a responsibility we take very seriously. Our unique selling point is that we live by our values to create business partnerships with our clients, committing to make them more efficient, successful and profitable in product and project delivery to their clients.

# MADE IN MERENDA

---

We offer the following surface and edge solutions for the fit-out and furniture.

- PVC/ABS Edgebanding – All Widths, Thicknesses

- Flexible profile wrapping veneer for mouldings

- Melamine Edgebanding – Preglued and Unglued

- Hotmelt Edgeband adhesives

- Veneer Edging - Thickness 0.5mm – 2.5mm, Preglued in 0.5mm – multiple widths available up to 290mm

- Veneer layons - Standard sizes and bespoke laser cut to client specification

# HOW TO ORDER YOUR LAYON

- 1.** Send us your design as a DXF or DWG drawing or quote the code underneath each render in this book. We can help you choose from our extensive range of veneers to suit your end client.

contact: [layons@merenda.com](mailto:layons@merenda.com)

**2.** Once the design is settled on we will create 3D models using the latest CAD software. Full renderings will be sent out with our quote, letting you see exactly what you are getting.

**3.** Your layons are manufactured using state of the art CNC laser cutters, guaranteeing accuracy. Each one is assembled by a highly skilled craftsman, ensuring quality from the first layon to the last.

# STANDARD LAYONS

*Simplicity itself.*

A straightforward, clean and affordable solution. Choose from, book, slip or random match.
