MERENDA

VENEER EDGEBANDING

Creative
Surface
Solutions

“I HAVE WORKED ON MANY PROJECTS WITH MERENDA OVER THE PAST 5 YEARS INCLUDING PROJECTS AT THE DUMONT IN LONDON. MERENDA HAVE PROVEN TO BE EFFICIENT, TRUSTWORTHY AND DELIVERY FOCUSED ON ALL PROJECTS. THEY ARE GOOD, CONSCIENTIOUS SUPPLIERS WHO DELIVER A QUALITY PRODUCT ON TIME, WITHIN BUDGET. THEREFORE “I HAVE NO HESITATION IN RECOMMENDING MERENDA FOR ANY TYPES OF EDGEBANDING AS MENTIONED ABOVE.”

Seamus McMullan

Purchaser, Specialist Joinery

“**Merenda have supplied us** specialist veneer edging for a large number of projects where specified matching veneer edges were required to match facing panels. We have found them to be extremely professional at all times and flexible to our changing requirements. They are very easy to deal with and communication throughout the project was excellent. “

The edging supplied has varied in species and complexity from non-standard cuts to short grain versions. They have always delivered the material to us on schedule and on budget with the quality always being excellent which I know is something they are very conscious of being one of the main manufacturers of veneer furniture components in the British Isles.

About Merenda Surface

Also Supplied - Veneer layons to match the edgebanding

What is it

Merenda Surface offers a bespoke veneer solution for any furniture component that may exist within a space; whether it's for wall panelling, doors, gables, door frames, doorsets, or kitchen cabinets- if it's got a surface Merenda can veneer it.

Why choose us

Many companies do not have the facilities or the expertise in processing veneer- Merenda do! We have spent the last 30+ years in resolving design led challenges around veneer. We are known within the industry as experts in natural veneer and also specialise in using dyed veneers like Tabu and Alpi.

Value

We can take a difficult design specification and resolve it by offering a bespoke veneer solution. Our clients appreciate the flexibility of Merenda products that allow many different veneer components to seamlessly join together for an exceptionally high-end finish to their projects. Through doing this, we take the specialist pain away, problem solve complex veneer joinery issues, helping them save significant time and money.
